R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
##
        speed
                        dist
##
   Min.
           : 4.0
                   Min.
                          : 2.00
    1st Qu.:12.0
                   1st Qu.: 26.00
##
    Median :15.0
                   Median : 36.00
##
##
    Mean
           :15.4
                   Mean
                          : 42.98
    3rd Qu.:19.0
                   3rd Qu.: 56.00
   Max. :25.0
                   Max. :120.00
##
```

Including Plots

You can also embed plots, for example:

Note that the echo = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.
